

Fibre System Plus™

COMPLETE GASTROINTESTINAL CLEANSING PROGRAM

4Life®

Total Body Cleanse

The Digestive System, specifically the intestinal tract, is responsible for the breakdown, absorption and elimination of all foods we take into our bodies. Digestion is an essential ongoing process and our overall health is directly influenced by the efficiency and ability of the intestinal tract to complete the digestive process. In today's society of over-processed and fatty foods, there can be frequent build-up of debris in the intestinal tract that decreases nutrient absorption and increases fatigue, gas, bloating and other discomforts. Maintaining a healthy gastrointestinal tract can restore proper digestion and nutrient absorption, leading to increased energy and improved overall wellness.

Fibre System Plus from 4Life™ provides an exceptionally smooth, effective and complete gastrointestinal tract cleanse. Optimal gastrointestinal system health requires action at several levels. Fibre System Plus is a premier herbal combination that addresses each of these levels and promotes improved intestinal function and nutrient absorption.

Key Points

- **Spring Clean for the Intestinal Tract:** The build-up that occurs in the gastrointestinal tract decreases nutrient absorption, causes fatigue and can lead to serious health complications if ignored. Fibre System Plus provides a thorough ten-day cleanse that is recommended every six months to keep the digestive system operating smoothly. Conveniently packaged in six capsule packets, Fibre System Plus can be carried with you wherever you go.
- **Important First Step in Wellness Program:** 4Life offers a wide variety of weight management and general maintenance products. The effectiveness of individual nutrients in the 4Life products can be enhanced by using Fibre System Plus to ensure an effectively cleansed intestinal system. Get the most benefit out of 4Life's products by performing a complete intestinal cleanse twice a year.

Did you know?

The National Institute of Diabetes and Digestion and Kidney Diseases (NIDDK) reports that 60 to 70 million Americans suffer from some type of digestive disorder.

The NIDDK states that 4.4 million Americans are constipated while five million have Irritable Bowel Syndrome diagnosed each year.

Technical Points

Fibre System Plus combines 27 herbal extracts in convenient six capsule packets to provide thorough, and comfortable intestinal support and purification. Each herbal ingredient has a specific function within the digestive system.

- Psyllium, apple and cranberry provide a bulking effect and also absorb and eliminate residues.*
- Cascara, frangula, sage, ginger and prune promote intestinal motility.*
- Mucilages from Irish moss, marshmallow, slippery elm, locust bean and xanthan gum support the entire digestive tract.*
- Pineapple, papain and bromelain provide enzyme support to digestion.*
- Goldenseal, gentian and licorice tonify the mucus membranes of the stomach.*
- Chamomile and hops support the nervous tissues of the stomach and intestines.*
- Parsley promotes normal kidney and bladder function.*
- Spirulina and bee pollen provide balance to the entire formulation by providing easily absorbed micronutrients.*
- 4Life recommends Tea4Life™ to maintain the gastrointestinal cleanse provided by Fibre System Plus.

DIRECTIONS: For a total body cleanse, take the contents of one packet one-half hour before meals three times daily for ten days. For best results, use Fibre System Plus twice per year.

Serving Size: One (1) Packet
Servings Per Container: 30

NOTICE: This product contains cascara sagrada. Read and follow directions carefully. Do not use if you have or develop diarrhea, loose stools or abdominal pain. Consult your physician if you have frequent diarrhea. If you are pregnant, nursing, taking medication or have a medical condition, consult your physician before using this product.
